

Extra notes:

To learn how to observe
things in nature.

My favorite thing today
was the bug hunt.

- Write 3 sentences describing one animal that lives here.

The spider has a fuzzy abdomen. It is white and orange stripes on its legs. It has really small eyes. It's hanging upside down. Its web is perfect. It has a yellow neck. It has a black butt.

- Find a rock and look at it with a hand lens, what does it look like? Write down 5 words that describe it.

- Find two leaves. Bring them to your group leader and describe how they are the same and how they are different. Make a leaf rubbing of each leaf.

Leaf Rubbing 1:
